Submitter Comments:

Ban pig poisoning
Get rid of pronged collars
CCTV for all factory farmed animals- not just horses.
Horses should not even be considered livestock. Former race horses should be rehomed to caring, horse families
All factory farmed animals should be considered sentient beings and treated with kindness and dignity- their death should be as fearless and painless as possible. Farm with compassion. Stray cats should not be poisoned or shot. Cow pregnancies- and all unwanted pregnancies- should be taken care of by a humane, licensed vet only.
