Submitter Comments:

Thank you for the opportunity to comment and I believe the following MUST be included in the Animal Care & Protection Amendment Bill 2022:- This Bill MUST ban calf roping - instead it clarifies that rodeos events (under the Code of practice) are allowed- MUST introduce mandatory reporting of suspected animal cruelty- MUST ban 1080 poison- MUST acknowledge the sentience of non-human animals- MUST extend the statute of limitation for animal cruelty offences (currently 12-18 months)- MUST make any meaningful changes to factory farming and other farmed animal welfare, including transport or slaughter (other than CCTV for horses at slaughterhouses)- MUST make major changes to monitoring and enforcement of animal welfare, particularly for farmed animals
