Submitter Comments:

To whom it may concern Please ban glue traps - these are inhumane and do not discriminate between creatures, often trapping native wildlife. They are currently easily available and consumers use them incorrectly, or don't check them often, leaving animals to die painful deaths. It is simply unacceptable. As a wildlife carer and shelter operator, I have seen many images and heard many stories of animals dieing in glue traps. They are simply barbaric, a different form of the metal claw bear trap. I think this is an easy decision to make in favour of a ban. Thank you.
