Submitter Comments:

Please ban glue traps as they are extremely inhumane by causing sentient animals intense and long term suffering. They are also indiscriminate in killing animals that are not their intended target. These traps are currently widely available and people often don't use them properly or check them often, leaving animals to die a long painful death. No sentient creature should be tortured in this cruel fashion. Have a heart and show your compassion as a decent caring human being by banning these glue traps now. Evil cruelty thrives when good people stand by and do nothing. Please don't let this evil continue. Ban glue traps immediately. Thank you!
