Submitter Comments:

I am writing to express my absolute disgust at the allowance of glue traps to be sold to businesses, the public, or anyone else for that matter. These are just appallingly cruel and so inhumane they should never have passed regulation. If you could just imagine the unjustifiable pain and suffering these poor animals/birds go through and relate it to how you would feel if this was your pet then you may feel some compassion. It is just unthinkable that humans can do this to our native wildlife but just another example of uncaring bureaucracy. Please have some thought as to how cruel these traps are and put yourself in their place. There would be a huge outcry if people were being hurt/killed in the same way. Roslyn Olding
