Submitter Comments:

Ban all glue traps. Glue traps not only capture pests, but our treasured native wildlife. We need to protect these unique and wonderful creatures, not treat them as pests to be destroyed. These traps are also barbaric! They are inhumane and cause the suffering of sentient beings. We can do better, we must do better! These traps are readily available and worse, people do not know how to use them, leading to disastrous impacts on our wildlife and other living creatures. These traps cause animals to die a very slow, horrible death. If people were doing this to our beloved dogs there would be immediate action; all animals deserve the same respect and care. You must act now and end the use of these torture devices!
