Submitter Comments:

I would like the glue trap sold by Bunnings be banned. We have destroyed the planet almost to the point of no repair. To allow the sale of Insect Glue be allowed to be sold is benefitting no one. Innocent insects and birds, part of the eco system are also being killed by this glue. Cant imagine anything more terrifying than being stuck on a glue with no escape. Cruelty is not Christian. Bunnings doesn't give a damn-do you.
