**Submitter Comments:**

I applaud that the Animal Care & protection Bill 2022 is being considered. However so many animal cruelties & abuses are omitted:1. Need an Independent Office of Animal Cruelty.2. Banning calf roping at rodeos.3. Bill does not ban 1080 poison.4. Does not mandate reporting of animal cruelty.5. Does not acknowledge the sentience of non-human animals.6. Doesn't extend statute of limitations for animal cruelty.7. Does not make any meaningful changes to factory farming abuse.8. Does not mandate CCTV except in horse slaughterhouses.9. Does not make any changes in enforcement of animal welfare particularly farm animals.10. No mention of the tail docking & mulesing of farm animals.11. No mention of banning prong collars, tethering, firing, or blistering.12. No ban on pig poisoning.13. Debarking of dogs.14. Need for better laws to allow inspectors to visit animal facilities unannounced. I'm sure there are other animal abuses that I have not mentioned but I am asking you to include so all animals can receive better welfare standards. Thank you.
