

Inquiry into the Animal Care and Protection Amendment Bill 2022

Submission No: 471
Submitted by: Allison Perry

Submitter Comments:

The wording on this law is far too loose. Restraints are used for the protection of animals and handlers. Collars are used for identification of animals (microchips can move and should not be the only method of identification). Animals need to be exercised and in a way that is safe for the animal, the handler and the general public.
