Please ban all glue traps in Queensland, they are totally unnessesary, I have petitioned Bunnings but it seems money is the only thing they are interesred in, such a cruel product and a terrible slow death for any poor creature caught in one of these traps. In my beautiful suburb of Springwood the Logan council has allowed dogs on a leach access to to the Springwood Conservation Park, before dogs and their owners were allowed whenever you went to or even walked past the park you would see wallabies and other wildlife, now there is no sign of these beautiful creatures. Why would you need to walk your dog in this beautiful park? We have offleash dog parks and wonderful treelined streets
