Hi,I am writing this to request you immeditely ban the horrific Glue Traps that are sold by Bunnings( or anywhere else)How could any of you sleep at night knowing that as you sleep, and any other moment.....an innocent animal just going about their life ....becomes trapped in a nightmare of torn feathers, ripped and painful limbs. Apart from the terrible pain....they die a long and tortuous death because you have not banned these traps already.Take a compassionate stand!Do the right thing.An animal awaits you at the gates of heaven.
