Submitter Comments:

Ban glue traps as they are inhumane and indiscriminate. They are currently easily available and animals endure a long and painful death. Even if animals are found alive in the traps, they are left with terrible injuries and die thereafter. Ban the use of 1080, this poison is also indiscriminate, native animals are being poisoned directly and indirectly. Australia is facing a wildlife extinction crisis and we need to stop the unnecessary deaths of wildlife. I ask that the committee consider the impacts of animal management processes and the unintended consequences on our native wildlife, as well as the humaneness of the process. Kind regards Tanya
