Submitter Comments:

The selling of glue traps has to stop, they are cruel and unselective. These traps are easily available and those using them don't use them properly or check them often which leads to a very slow and painful death for the animals unfortunate enough to come into contact with them. We have lost so much of our beautiful wildlife to natural disasters in the last few years and now we are adding to these numbers by allowing these traps to continue to be sold and used.
