

**Inquiry into the Animal Care and Protection Amendment Bill 2022**

**Submission No:** 703  
**Submitted by:** Geoffrey Wright  
**Publication:** Make my submission and my name public  
**Attachments:** No attachment

**Submitter Comments:**

Dear Committee Members. Glue traps are indiscriminate killers they catch any animal that happens to come into contact with them. Once caught on these incredibly sticky traps these animals die a slow and excruciatingly painful death. To protect our increasingly threatened small native birds, insects and mammals these deadly glue traps must be banned. Thank you for accepting and considering my submission and please do all you can to eliminate these horrible killers of our precious wildlife. Yours Sincerely. Geoff Wright
