To whom it may concern,

Hello and I hope this message finds you well. I am writing to urge you to ban the sale of glue traps. These traps have been shown to indiscriminately kill a wide variety of animals and to do so in an incredibly cruel process wherein the terrified creature dies slowly of painful starvation and exposure, often ripping off limbs as they struggle. Though already banned in some areas their sales continue online. Please do the conscientious thing and remove these barbaric devices from the market. Thank you for your time.

Robert Stroud
