Submitter Comments:

Thank you for the opportunity to make a submission regarding the use of glue traps. This product delivers a slow and cruel death to a wide range of birds, animals and reptiles, as it is indiscriminate in its ability to bind and trap. It is readily available and often used without consideration for the type of wildlife it will capture, the long slow painful death they will suffer as they struggle and injure themselves and the starvation that will prove fatal in the end. I have seen multiple heartbreaking images of the victims of these glue traps. If trapping is absolutely necessary, there are far more humane options, so I request that this product be banned and more humane options be promoted. Thank you.
