Submitter Comments:

I am appalled at the cruelty of these grossly inhumane and indiscriminate traps which I have only just learnt exist. They should not be easily available and it should be impressed UPon people that they are checked regularly so that animals do not suffer a long and painful death. However, I really call upon the Government to ban these glue traps altogether, they are barbaric and I am shocked that they have been allowed to be used, for so long. We need to treasure our wildlife which is already in danger of dying out in many places, we are so lucky to have the animals and birds that we do have in this country and we should be preserving, not killing them. STOP THIS DISGRACEFUL CRUELTY - BAN GLUE TRAPS.
