Submitter Comments:

I write this submission on behalf of my 12 year old daughter. We have the ability to put an end to animal cruelty. Try explaining our current laws to a child and you will quickly see how outdated and unjust they are. This is an urgent matter that needs to be addressed quickly to help start a future of fair treatment and laws to protect animal from suffering. Please strengthen laws to hold offenders accountable for the harm, neglect or abuse caused. Why should the penalties for harming or neglecting an animal, be any less then the same offence towards a human.
