Submitter Comments:

I am very disturbed that glue traps are inflicting so many torturous deaths on our precious native wildlife and urge an immediate cessation to their sale. Bunnings should cease their sale forthwith and research into alternative non-harmful methods of dealing with the problem should be investigated. If such means are not possible the torture trap method of glue traps should never be reinstated. Our wildlife is already experiencing severe existential problems with drought, fire, flood, climate change and habitat loss. These human induced conveniences death traps must be banned immediately..
