**Submitter Comments:**

PLEASE stop selling glue traps! Surely as a species we do not have to be so cruel and inhumane to every species on this planet. Imagine for just one minute what dying on a glue trap would be like for any creature. A kinder world would be one where we respect all our fellow creatures rather than looking on them as unfeeling pests. PLEASE help raise the bar for our behaviour towards other creatures that all live on this planet with us. Kindness towards all other living beings can create a better world for all of us. Kind regards christine smedley.
