Submitter Comments:

Glue traps are an abhorrent piece of equipment. The cruelty that is bestowed on any animal stuck on them is absolutely disgusting. Painfully stuck and unable to move, slowly dying of thirst and hunger is a disgusting thing to do to any animal. There is no justification for these traps to be available and legal! They are indiscriminate- killing birds, reptiles, insects and mammals. Regardless of any of these creatures being pests does NOT justify cruel and painful methods of control. Glue traps need to be banned!
