Submitter Comments:

I believe that glue traps need to be made illegal. It takes the hapless animals caught in them days to die. They are indiscriminate in terms of what species they catch which could include mammals, reptiles and birds. The suffering experienced by the creatures caught in glue traps is horrific. I want glue traps banned because I believe it is unethical to cause this prolonged suffering to any living being. I also believe glue traps are a reflection of the total contempt that far too many people show toward other living beings.
