Submitter Comments:

I ask that the committee consider the impacts of animal management processes, considering the unintended consequences on our native wildlife, as well as the humaneness of the process. I ask that traps be included as a threatening process in the Bill, as it is essential the use of glue traps be banned. It is heart-breaking to see photos of creatures which have been caught on the glue traps. They can die slow and horrific deaths from thirst, starvation, suffocation and injuries as they struggle to free themselves. This is not humane. We need to stop unnecessary deaths of native wildlife as many birds, native animals, native rats and bats etc are being trapped. Glue traps must be banned and controls regarding their purchase and use introduced and enforced. Thank you
