

Inquiry into the Animal Care and Protection Amendment Bill 2022**Submission No:** 1108**Submitted by:** **Publication:** Make my submission public but keep my name confidential**Attachments:** No attachment**Submitter Comments:**

Glue traps are an indiscriminate technique of pest control. People use them without thought to what they may "catch". Small animals, reptiles such as skinks, beneficial insects and even small birds are trapped and either die a slow stressful death. Or straying or the family cat find the tethered victim and being cats inflict more stress before death.
