Submitter Comments:

Queensland Parliament, Please take into consideration my submission. I ask that Glue Traps sold by any company be banned in Queensland (and hopefully Australia wide), due to the barbaric and cruel nature of them. Having an animal trapped and stuck in glue not being able to move but just waiting to die is a cruelty that I find unbearable to think about. I can't even imagine the distress to a child if they discovered such a trap with an animal stuck on it. The traps aren't specific to any particular animal, so it's possible even native wildlife can become entrapped by them. We class native cats as feral and want them eradicated because of the destruction to our native wildlife, so please prevent any more of our precious animals, some on or close to extinction becoming the victims to this terrible so called solution to eradicating pests. I sincerely hope that you will listen to those that take the time to write their submission against this horrible torture trap and to please take action against its sale within the state of Queensland. Sincerest regards.
