Submitter Comments:

I want glue traps banned as they are inhumane and indiscriminate. They are currently easily available and people don't use them properly or check them often, leaving animals to die a long painful death. The use of poisons has often been indiscriminate and careless, and possible impacts on native wildlife is rarely mentioned, or where it has been, not adequately or correctly assessed.

However, even less likely to be mentioned is the use of traps. Most people know about horrific injuries of jaw traps and have considered soft traps instead, but there has been no research on another widely available trap – the glue traps. Glue traps are widely available in Australia and although 3 states have limited their use, they can still be purchased online. There are NO controls at all regarding their use, and unfortunately many people put them inside and outside and do not check to see if anything has been caught. Animals caught can die slow and horrific deaths from thirst, starvation, suffocation and injuries as they struggle to free themselves. Many people, when questioned if they found an animal trapped, would simply throw the trap in the bin. This is inhumane. But even worse is the number of native animals caught on these traps. Australia is facing a wildlife extinction crisis and we need to stop unnecessary deaths of wildlife. Carers and vets have rescued (and tried to save) reptiles, small native mammals (including bandicoots, antechinus, native rats), birds, raptors, pet kittens, and most often, our insectivorous bats. Most do not survive. I ask that the committee consider impacts of animal management processes consider unintended consequences on our native wildlife, as well as the humaneness of the process. We ask that traps be included as a threatening process in the Bill. We would like to see the glue traps banned.
