**Submitter Comments:**

I do not live in Australia but I feel that these glue strips should be banned in every country. For the sake of God, these glue strips are slowing killing or maiming precious wildlife! Isn't it bad enough that we humans are destroying each other and if that isn't enough we go after defenseless wildlife who are just being, yes just being. They are doing what they were intended to do and actually are precious and important to our planet. There are other ways and means to solve problems in a more compassionate way, isn't there? Or has this world grown so COLD and UNCARING for ANYONE OR ANYTHING. ....Please do the RIGHT thing. For once in this WORLD WILL SOMEONE PLEASE SHOW LOVE, RESPECT AND DECENCY. JUST FOR ONCE I would love to hear of humanity doing what is right. You can all see for yourselves that the wildlife is SUFFEREING for being caught in these strips. Would you like to die that way? Would you like to be accidently caught in one and not be able to get out?

Stop and think, we as humans are invading the space of wildlife everyday isn't that enough. Please ban these glue strips.
