As someone who has been around and involved in the animal rescue industry for 7+ years I have seen the best and worst of people. I have seen things people only have nightmares of. I have helped countless amount of animals. I have taken hundreds of calls against animal cruelty. The legislation needs to be better. It is as simple and as complicated as that. There needs to be stronger penalties and more responsibility put on owners of animals. Animals of this world and in particular pets don't ask to be here, they don't choose to be bought and sold, they simply exist for our enjoyment and the fact that so many people take advantage of that is awful. The courts don't stand for injustice against children and other people without a voice, my question is why animals?
