I request that the animals that are being stuck because of the glue you are using, providing, making, selling are more important than the profit you or any company, organization, group are receiving. Animals, including mice and rats, are important to the ecology of this country and need to be protected. Using glue to stop them is painful and just plain inhumane and should be abolished from production and selling of the products. You would not like to have a part of your body glued to something so you can't move and end up dying painfully so why make innocent animals suffer like this. This is just wrong and I hope you see that animals are more important than profits and stop the glue used for good. Thank you.
