Submitter Comments:

I would like to request the discontinuation of the sale and use of these cruel products. I personally have had the horror of finding a bird (non native) with glue all over it in distress some time ago. I tried everything I could to try to remove the glue without success as all the feathers started falling off and the bird was in great distress. I phoned wires and a vet for help. Wires would not help as it was not a native animal.. But it could have easily have been. As I could not stand seeing this bird in agony I took the bird to the local vets where they were going to 'end it's life'. This was so distressing and the thought it could happen to any animal/ insect/ bird .. that I have made this submission. Prior to then I had no knowledge of these kind of traps.. and the slow painful death they bring about..
