**Submitter Comments:**

I request that glue traps be banned as they are cruel in that they cause a long stressful death and can trap many different animals. They are easily available and are purchased by people who have little idea of the horrendous death they cause, and who do not check them to see what animals may be trapped. As a registered Wildlife rescuer and rehabilitator I have personally seen animals trapped, and on only a couple of occasions have been able to rescue, rehabilitate and release the animal. The animals able to be helped have been a microbat and a tiny bird. Thank you, Barbara Lyons.
