---

Dear Committee members

I, along with many others (in a Change.org petition), are very concerned about the negative effects that widely available glue traps (sold by Bunnings and others) are having on native wildlife in Australia. I understand that these glue traps have been banned in other countries - I am concerned as to why they are not also banned in Australia?

You will no doubt appreciate the precious life of too many of our native wild-life, is being cruelly and painfully taken from them in far too many cases.

Please help.

Kind regards

[REDACTED]
