

# Forest Wind Farm Development Bill 2020

The blades for the proposed Forest Wind Farm turbines are being manufactured elsewhere and will be imported. Why aren't they being manufactured in Queensland?

The world's largest offshore wind farm, Dogger Bank Wind Farm [1] in the North Sea, is constructing the blades at Green Port Hull [2]. There is high unemployment in the area.

Has the committee consider bladeless turbines? [3]

A handwritten signature in dark ink, appearing to be 'KHL'.A large black rectangular redaction box covering a signature.
