To whom it may concern

We wish to advise that we as residents in the immediate vicinity of this proposed development strongly object to the proposed change of legislation. Until January 2020 we were unaware of any proposal to erect a wind farm in the nearby forestry. To date information regarding the proposal has been totally unsatisfactory. It is our belief that these developments are not permitted under current legislation in Queensland. The intention for new legislation to allow the proposal to proceed with no public discussion regarding the matter should not be permitted and shows total disregard for the residents in the area.

Yours sincerely  
Carole and Bruce Bringans
