Submitter Comments:

I have just shopped at "coles - benowa gardens" in gold coast, Ashmore Rd, Benowa QLD 4217. I was browsing "lamb leg roasts on the bone", those and also the half roasts were both on special for \$9 a kilo, I saw and oddly priced HALF lamb leg roast, it said it weighed 2.927Kg, and \$26.39. Now this piece of half lamb Roast on the bone was less then half the size of the full lamb legs but somehow weighed even more then some of them. This was outright the wrong weight. I have video of this and the comparison of products. I was berated and spoken to in very condescending tones when I pointed it out to staff, they just took it into the staff room and ignored me, they just said "it's human error and there is nothing we can do". This was a complete disgusting display of price gouging and I am happy to provide video.
