Dear Chair,

Thank you for the opportunity to make a submission to the inquiry into the *Sustainable Planning and Other Legislation Amendment Bill 2011*. As the peak body for the building and construction industry in Queensland, Master Builders has an interest in the matters addressed in this Bill.

In particular, Master Builders supports the amendments to the *Plumbing and Drainage Act 2002* that will expand the category of works which do not require a plumbing compliance assessment or local government inspection. In our view, these amendments will help to streamline the process for obtaining plumbing approvals and result in lower costs for consumers.

I trust that these comments are of assistance in your consideration of this matter.

Yours sincerely

Paul Bidwell Director – Housing Policy
