The toll prices are too high. I don't travel on the toll roads because of the price. I travel from Ipswich to the Gold Coast. From Ipswich to the Sunshine Coast and to Cleveland most days of the week. I can most of the time get there sooner or just after the people who use the toll road. I have heard that there is a law stating that trucks must use the toll roads and not local roads. I don't think that is fair that they have to pay so high amounts in tolls.

I think if you would like more people to use the roads I think \$1 dollar per entry onto the road should be paid by all drivers no matter the size. This will also stop the drivers jumping off and coming back on to beat the traffic.

I will be able to talk more if there is anything else you wish to know. Thank you for time for reading this.

Peter
