---

Good morning, Please accept this email as a submission into the toll road enquiry.

1. Tolls should reduced according to the average speed, ie: roadworks. Users are often paying for a convenience that isn't really available, given congestion, accidents and roadworks. It would give the operator some incentive to clear issues quicker and conduct repairs after peak hours.
2. Tolls should be in effect for as long as it takes as to pay the contractor for the road + an agreed profit. The road should then be made publicly owned.
3. Consider making regular toll usage a tax deduction. Easing costs associated with doing business.

kind regards,

Dan Fowler,
