As I need to travel all over brisbane using the toll roads I use the toll roads as least as is possible. The cost is ridiculous as I have to pay numerous times to go and return from my clients. I have a number of occasions I want to change my car details and I find it near impossible to get someone that can talk English. Why is this being done offshore. I want Australians to work for Australia in Australia. The number of times I have to call to get someone to get it right. I cannot talk face to face and get it sorted properly. I dread the thought of when something goes wrong.

Regards

Dr. Bob Boardman PHd, Structural / Mechanical Eng (Hons)
