Committee Secretary
Transport and Public Works Committee
Parliament House
George Street
Brisbane Qld 4000

Dear Secretary

I'm an average Queenslander in my early 50's earning a good wage. I live on the Southside of Brisbane and work on the Northside. I do not use the Clem 7 because of the cost of the toll. It is far more economical for me to travel further and use the Inner City Bypass and not pay the toll.

Likewise, if I travel to the airport from the Northside I do not use the tolls to the airport because of the cost.

I've spoken to colleagues and friends and they are of the same opinion.

I think it's a shame that there are many Queenslanders like me that don't use the tolls because of the cost. This obviously impacts on the amount of traffic on major thoroughfares like the Riverside Expressway, ICB, and Sandgate Road.

I've heard the toll companies and some government MP's expressing an opinion that the tolls are reasonably priced. To be honest, those people are out of touch.

I implore the Inquiry to recommend the cost of the tolls be reduced.

Regards

Havden Lenz
