---

To whom it may concern,

Many of us use the toll roads infrequently because of the cost of using them.

Each year the tolls go up and I have no doubt every time they go up less and less people use.

Each year the salaries of the management of the toll companies go up. Time for some cost saving starting at the top.

And would it not be better to lower the toll and get more people using them.

I for one am in favour of an inquiry into the management of the toll companies.

Kind regards  
Alannah Balfour
