---

Dear Committee Secretary,

I think toll roads are great and I use them all the time but I think they should only be allowed, if there is viable alternative that gives people the choice on whether or not to use it. There is an alternate route for most toll roads in Brisbane except for the Gateway bridge. The Gateway bridge should not be a toll road. For vehicles travelling the east coast, eg Gold Coast through Sunshine Coast, using the Story/Captain Cook bridges are not a viable alternative. Imagine if all the heavy vehicles went through the city? It also isn't fair for Brisbane residents living on the South-side, eg. Wynnum/Manly having to pay to access their airport.

Thank you for the opportunity.

Best regards,  
David Borthwick
