Brisbane Qld 4000

Regarding toll roads.

The complete ripoff motorists encounter in the form of ridiculous charges for unpaid tolls is disgraceful. We have all read about unpaid tolls of less than \$100 being inflated to tens of thousands of \$\$\$. This is public extortion and a complete ripoff, it must stop now. The government should not be a private companies debt collector.

ALSO why aren't the charges for toll roads on signs approaching a tunnel or bridge etc. The Gateway bridge has only one small toll sign showing the charge for cars on the southside approach. This sign it is past the last exit preventing motorists the info or opportunity to exit if they think they charge is to high. Full details of all charges for all vehicle types should be clearly displayed well before any toll point.

Regards,  
Mark Sznajder
