Brisbane Qld 4000

Dear Sir/ Madam

Thank you for the opportunity to make a submission into the above inquiry.

Firstly I believe there are significant benefits in using the toll road system within Brisbane. Like most people though I do find it a costly process if I have to use them regularly throughout the week.

My suggestion is to provide a concession for “regular” users. Years ago purchasing a “weekly” ticket on Queensland Rail it was cheaper than buying daily tickets – a similar system needs to be introduced for the road tolls.

As a regular user I believe I should receive a concession compared to the driver who only uses the system spasmodically.

Regards

Darryl Witherington
