Brisbane Qld 4000

Dear Madam/Sir

I am a user of the toll system in Brisbane & in fact would use the toll road and tunnels more regularly if the price was lowered.

I wish to submit that the cost of using the inner city tunnels is extreme, at over \$4 per trip and some being over \$5.

I question why this needs to be so high. We are a growing city and customers like myself are more likely to use the toll roads and tunnels more regularly if the price was lowered. By keeping the price elevated this diverts traffic back to the regular roads thereby creating more traffic congestion.

I hope the inquiry will look at the affordability of the toll roads and tunnels.

Thank you

Vicki Parker
