Good morning Committee

I as a member of the public of Queensland that a private company owns the highway network of toll roads in Queensland.

These roads were to be built for the use of the travelling public of Queensland and Australia at large , only to find that they were sold to a private overseas company who as a set agenda of making a profit for their respective shareholders.

I absolutely find that this is a deplorable act, that Queenslanders as a whole don't own their own toll roads.

I want that these be reversed and the Queensland government have ownership and care and maintenance of these toll roads.

Kindest regards,

Leo Curtain
