Author R. Manning

Date 20 December 2019

Thank you for allowing RACQ the opportunity to comment on the proposed changes to the *Disability Parking and Other Matters Amendment Bill 2019*.

RACQ supports the proposal to extend disability parking eligibility criteria to persons who are temporarily or permanently blind.

We also support the proposed increased penalty for use of a disability parking area without a permit, however we reiterate our earlier comments that such an increase needs to be supported by increased enforcement and education.

We offer no comment on the proposed removal of Queensland specific definitions relating to rail or road crossings or changes to section 18 of the TORUM Act.

Should you require further information please contact Russell Manning on [REDACTED] or [REDACTED]
