Submitter Comments:

40metre highwall failure that almost buried 4 coal mine workers including myself at [REDACTED] Mine in Qld Corrupted mine, ISHR and Inspector/s. Never reported by the mine. The weakest investigation in favour of the mine. I hold great evidence to support my claim. With PTSD it is extremely traumatic to write this experience again. Happy to email through supporting material.

Can prove the incident wasn't reported. Can prove a tainted investigation. Coal mine workers need to be able to trust ISHR and RSHQ. My/our experience have been the total opposite. Please contact me on [REDACTED] or [REDACTED]
