### **Submitter Comments:**

The Australian Government is not doing the right thing by Leasing Australian Islands to Overseas Greedy Corporations, some of who do not comply with the lease originally signed. They do not follow date lines for projects to be completed and some like the one in this case actually bar Australians from an Island meant to be for all Australians and nature loving people. I do believe they have built fences to stop access to the Jetty and entry to the National Park there. This should not be allowed and the Government should be zealously keeping check on them to make sure they have followed the lease which I don't believe they have. I agree with the other Petitioners that Government cancel the lease with the company involved so they can go look somewhere else to built a Resort for a selected few.
