Submitter Comments:

Dear TeamIt is not in Australia's best interest that key properties such as Keswick Island be sold off to non-Australians. These properties are the heritage of our children and should be kept for them. Such special places should be loved and preserved i

Submitter Recommendations:

Do not let non-australians buy key properties in Australia; we, as Australians cannot go into foreign countries and buy land, especially in such key locatons - the Barrier Reef, and an island just offshore.I'm sure all Australians would agree.
